

An invitation to the launch of *The SAGE Handbook of Globalization*

Rarely does a day pass without some reminder that we inhabit a rapidly globalizing world.

The two-volume *SAGE Handbook of Globalization* exemplifies the dynamism of RMIT's Global Studies discipline and Globalism Research Centre in a bold new field of teaching and research.

A genuinely global endeavour, this path-creating publication draws upon the research expertise of leading scholars from Asia and the Pacific, Africa and Europe.

Join guest speaker Professor Andrew MacIntyre, Deputy VC International and Vice President, RMIT University and the editors Professor Manfred Steger, Associate Professor Paul Battersby and Professor Joseph Siracusa for the launch of a truly landmark achievement.
