## Rationale

How can we measure development? Recent years have witnessed concerns regarding effective management and results oriented approach to development projects and programmes. The discourse has gained further momentum with adoption of Sustainable Development Goals (SDGs), Targets and Indicators. The quest for impact of development interventions has been intensified as the message “Leaving No One Behind” gets loud and clear. Participatory Monitoring and Evaluation (PM&E) is an important process that enhances relevance, effectiveness, and sustainability of development programmes. It helps organisations and institutions improve their functioning.

Participatory approaches to monitoring, evaluation, and impact assessment facilitate the active participation of the primary stakeholder, i.e., the community or the beneficiaries of the project. These approaches are also valid for organisational strengthening and institutional learning and can be applied to a diverse range of organisations.

This course on Measuring Change: Evaluating Learning and Impact offers a range of conceptual and practical issues faced by practitioners, adult educators, researchers, resource providers and policy makers in managing organisations and programmes in a participatory manner. The course provides an international perspective on approaches, frameworks and models used in the field of monitoring and evaluation.

The course provides conceptual knowledge, exposure to frameworks and processes for facilitating PME and Impact Assessment in the development project or organisational settings. The modules and activities facilitate critical analysis of different debates and perspectives on Participatory Monitoring, Evaluation and Impact Assessment in a facilitative environment.

# Who we are?

**PRIA International Academy (PIA)**, established in 2005, offers educational opportunities to university students, practitioners, and researchers to enhance their knowledge and skills. PIA as the educational wing of PRIA (Participatory Research in Asia) draws on practical lessons from the action learning projects of PRIA implemented over the last four decades combined with experiences of other organisations. The educational offerings by PIA are the perfect blend of practice based experience and academic rigour. PIA is the recognised Indian Hub for Knowledge for Change (K4C) (an initiative of the UNESCO Chair on Social Responsibility of Higher Education and Community Based Participatory Research). It offers:

- **Online Courses**
- **Blended Mode Learning Programmes**
- **Training and Workshops**
- **Research and Consulting Services**
