The EU Centre at RMIT in conjunction with the Embassy of the Federal Republic of Germany, the Australian Institute of International Affairs Victoria, the Goethe Institute, Monash University and the University of Melbourne EU Centre on Shared Complex Challenges present:

"Germany and the European Union 25 Years after the Peaceful Revolution"

The fall of the Berlin Wall 25 years ago was the beginning of the end of decades of a divided Europe. In its wake, European countries took the chance to unite in peace. This historic example shows what change is possible in Europe, especially if it is brought about by a common purpose – a fact more important than ever in light of current developments. Europe can only move forward together – both politically and economically, and especially when facing the challenges of globalisation and the digital revolution.
