The 4th National Lifelong Learning Expo: Joyful learning and lifelong learning together

4-6 September 2015 Seoul, Republic of Korea

The Lifelong Learning Expos are held annually to serve as a space for learners and institutions of lifelong education to come together and share their learning experiences. It also serves to further promote the learning culture and to encourage public participation in lifelong learning. The 2015 Expo is the 4th in its series and shows no signs of slowing down as it pushes forth its ideals for a happy learning experience.

Annually, some 250 lifelong education institutions participate in the Expo, with more than 50,000 learners attending the event. For clips from the 2014 and 2015, please visit: https://www.youtube.com/channel/UCAU70B23_C9jUagR6Y962TQ.

At the Expo, the local governments from 17 cities and provinces, 136 learning cities, and numerous study circles and institutions of lifelong education including lifelong education universities operate exhibition booths to share learning outcomes and information about programs to help the public take part in the learning experience.

This year's Expo includes the 2015 Lifelong Learning Award and the plaque presentation ceremony for newly designated learning cities. Additionally, various events relating to lifelong education are planned, including the announcement of a new "Literacy Month" and the launch of a new exhibition of illustrated poems written by learners from adult literacy education institutions around the country.

The main contents and accomplishments of the National Lifelong Learning Expo will be uploaded to the official webpage (http://expo.lll.or.kr/) for public viewing (Korean only). Should you have any further questions about the Expo, you can contact us at global@nile.or.kr.
