LIGHT REFRESHMENTS SERVED

Celebrating 30 Years of Erasmus, this event hosted at RMIT will feature a celebration of the benefits of the Erasmus programs for achieving the hopes and aspirations of Europe's youth, bridging cultures and extending the hand of friendship even so far as to Australia. The celebrations also coincide with the 60th Anniversary of the Treaty of Rome which lead to the peace and prosperity of the continent.

Ambassador Sem Fabrizi will headline a group of distinguished participants who will share their Erasmus experiences and how these contributed to their professional lives.

Erasmus+ is the European Union's programme for 2014 to 2020 to support projects, partnerships, events and mobility in the areas of education, training youth and sport. It builds on long experience within Europe of academic and youth exchange programmes and university cooperation, and is celebrating 30 years since the first students moved between European universities.
