### What is IMPLEMENT?

IMPLEMENT is a project that aims at supporting universities in becoming true Lifelong Learning Universities. It is exploiting the excellent training materials of the BeFlexPlus project by creating virtual learning environments. Currently, the course materials are revised, adapted to partners' LLL circumstances and updated to be turned into **5 distinct and freely available online courses**.

**These courses are intended for:**

- counsellors, advisers, assessors, trainers or process managers,
- heads of unit, project managers, project consultants, teachers or adult educators,
- administrators or managers in University Lifelong Learning/Continuing Education

**Project objectives**

- To develop a sustainable set of online training tools in five distinct areas for a wide use throughout Europe
- To use the material in training events for the development of university staff
- To cooperate with key university players for the materials' adaptation to national and regional needs
- To promote trans-national and trans-sectoral cooperation
- To exploit best practices on key LLL topics
