

Donostia-San Sebastián, 5th March 2015

Dear friend,

We are glad to inform you that Fomento de San Sebastián (San Sebastian Economic Development Agency), in cooperation with the Basque Regional Government, within the Local Economic Stimulus Plan 2015, is launching a new edition of the **INTERNATIONALISATION GRANT PROGRAMME** for young graduates in Donostia- San Sebastian metropolitan area in order to carry out an internship abroad.

We are inviting your organization to be part of the **INTERNATIONALISATION GRANT PROGRAMME 2015 and host a young professional for a 6-8 month internship**. The programme consists of grants addressed to university graduates or higher training diploma holders under 30, for an **internship of at least six-eight months abroad**. The ultimate goal is to enhance young graduates' skills through their participation in a specific project at your organization, to the benefit of the host organisation headquartered abroad.

It is an initiative designed to meet the demand among the skilled labour in Donostia- San Sebastian **to improve their knowledge, competencies and skills, and to enter the labour market in emerging sectors** considered as strategic in Donostia-San Sebastián. It responds to the need of the local business fabric for young labour with skills in special sectors, trained in international environments to face the global reality.

All grants will be **financed by Fomento de San Sebastián**.

The programme gives professional training in specialist sectors, improving candidates' technical and language skills and deepening their knowledge while fostering their mobility.

The INTERNATIONALISATION GRANT PROGRAMME 2015 is now selecting hosting organisations that might have an initial interest in hosting 1 trainee for their organization.

This is why we are contacting you, as we would like to know if you are interested in hosting an intern and/or kindly ask you to help circulate this initiative among organisations in your area.
