

Invitation to Danish Conference in May 2013

Remotivating Disengaged Youth

Unfolding the inclusion potential of learning technologies

**Aarhus Social and Health Care College invites you to the
"Remotivating Disengaged Youth" conference in May 23-24th 2013
in Aarhus Denmark.**

Our Mission

is to deepen our understanding of the impact media based learning, game based learning and laboratory learning can have on disengaged students achievements, and reflect on the ways to assess it.

Do you want to be part of our future initiatives? And work together finding creative ways and ideas to re-motivate disengaged youth struggling with education?

Join us!

We would like to contribute to the up-coming European Policies on empowering youth through creative technology with the help of your knowledge and input.

We see this conference as an opportunity to build new partnerships and relevant networking for future initiatives within Erasmus for All, new media learning programs and similar 2014-20 programs.

Keynote speakers

Intel Computer Clubhouse Network by Danielle Martin "Empowering disadvantaged youth through media projects"

James Stewart "A vision for Digital Games for Inclusion and empowerment in Europe: Opportunities and Challenges"

Peter Koudahl "Understanding students' drop-out... An invitation to critical reflection"

To sign up: www.rediyou.eu

News, conference program, participants and other important information will be detailed and updated on the conference webpage.
