## STUDENT SCHOLARS PROGRAMME 2012-13

### INFORMATION SHEET

The World Congress Planning Committee is sponsoring a competition to identify up to 8 currently enrolled students of any age from different parts of the world to undertake a small research project on issues relevant to access to post-secondary education in their country or region.

Each student selected will receive a small research scholarship of \$US1000 and the costs of their travel and accommodation to attend the Montreal Congress in October 2013.

Successful students will be required to prepare a short video (5 minutes maximum), which they will present at Montreal 2013, and to submit a written report on their work (maximum 5000 words) by 31<sup>st</sup> August 2013.

Each will also be appointed a mentor to guide and support them in their research and in preparing their project video and report.

Students will be able to define their own projects, but their work must incorporate visual and written elements. An element of primary research is preferred but not essential.

Projects that highlight what 'under-representation in post-secondary education' means in different parts of the world and the factors that contribute to it will be especially welcome.

Application forms and guidance notes will be available on the Congress website from September 18<sup>th</sup> 2012: [www.eanworldcongress.org](http://www.eanworldcongress.org) Completed forms must be submitted by October 15<sup>th</sup> 2012.
