Social Network Analysis in Education: An introduction

Chris Downey, University of Southampton

The School of Education is delighted to invite you to a lunchtime seminar on Social Network Analysis (SNA) on 4th June at 12.20-14.00.

Venue - Room 433 ,ST. Andrew's Building

SNA is an underused method in educational research. Chris Downey, University of Southampton will reflect on his experiences of experimenting with the technique and offer an introduction to using SNA in educational settings.

SNA has interesting applications for mapping relationships within and beyond Schools. Come and see if this approach is useful for your research!

Please confirm attendance for catering purposes to Deirdre.Kelly@glasgow.ac.uk
